Work Experience

Nov 2023 - Present
BestUpay | Internship
Frontend Web Developer & Designer

Seasoned Frontend Web Developer at BestUPay adept in crafting engaging interfaces using industry-standard tools like Figma and other relevant technologies. Proficient in creating intuitive designs that prioritize user experience, elevate usability, and align seamlessly with business goals. Instrumental in enhancing digital products and driving impactful user engagement, contributing significantly to BestUPay's success in the digital realm.

Nov 2023 - Dec 2023
Developer Augmentation Hackathon
Discord Community Manager

Expertly oversaw the Discord server for a Developer Augmentation Hackathon, from inception to robust functionality. Implemented role structures, bots, and personalized welcome messages, elevating server engagement. Successfully stimulated heightened activity, facilitating hacker interaction and team creation. Played a pivotal role in augmenting server dynamics, enhancing the event experience, and fostering seamless collaboration among participants.

Other Experience

Web Development Head

Manav Rachna Student Developer Community

As Junior Web Development Head at MRSDC, instructed students while spearheading website creation for the community. Organized and managed diverse events and workshops, enriching the MRSDC community experience. Demonstrated adeptness in both teaching and web development, fostering community growth and engagement.

Project Experience

20+ Projects

Completed 20+ diverse web projects across various industries, focusing on intuitive interface design, functionality optimization, and exceeding user expectations through innovative solutions.

10+ Workshops/Hackathons

Engaged in over 10 events, with involvement in 4 hackathons. Dedicated volunteer at 1 hackathon/event, contributing to collaborative and innovative environments within the tech community.
